

Add "Make this the start page for all users" to Online

I don't like that the default start page in my Online instance is Views. I want all of my users to land on Workbooks when they log in to the site. I don't have a way to set that.

----> Community Manager Update: This idea was 'Released' with 2019.2 release of Tableau

Special thanks to Sean Li and team for their hard work on this feature - and thank you to everyone who commented and voted!

Here is the online doc for this feature: [Set the Default Start Page for All Users - Tableau](#)

Download the latest version of Tableau here: [Tableau Desktop | Tableau Software](#)
