

# Tableau Server - Start page for each site

---

It would be helpful if we could set a **Start Page** for each site we have access to on the Tableau Server.

----> Community Manager Update: This idea was 'Released' with 2019.2 release of Tableau

Special thanks to Sean Li and team for their hard work on this feature - and thank you to everyone who commented and voted!

Here is the online doc for this feature: [Set the Default Start Page for All Users - Tableau](#)

Download the latest version of Tableau here: [Tableau Desktop | Tableau Software](#)

-- Amanda Boyle, Tableau Community Manager
