Sentiment Report
Honda Accord
Jan. 2009 to Dec. 2015
Interactive PDF (iPDF) facilitates easy navigation by allowing you to click on the components of a visualization to drill down to the next level of detail, and the icons located in top-left corner of the iPDF will allow you to navigate to different sections within the report. Below is a brief description of the icons:

1. **Back Button**
   Allows you to go back to where you were previously in the iPDF; the action is similar to a ‘back’ button in a web-browser

2. **Table of Contents**
   Introduces the topics found in the analysis and provides information regarding each topic. By clicking on a topic label (text) you can navigate to that specific section of the report for more detail. Topic text is interactive

3. **Score Detail Chart**
   Provides a breakdown of comment ratings, overall score and how the score is calculated

4. **Sentiment Matrix Chart**
   Showcases the breakdown of all topics sorted by sentiment (positive and negative) and frequency. This chart is best used to quickly explore and see the breakdown of positive and negative responses for each topic. Topic text and all components are interactive

5. **Score Bar Chart**
   Shows the relationship between a topic (extracted from text) and its score (calculated from rating). This chart intuitively highlights areas of focus to explore what topics are driving the score up or down. Topic text and bars are interactive

6. **Sentiment Comparison Chart**
   Displays how the topics change based on rating, e.g. from 1 star to 5 stars. Ratings are represented in the form of columns, and each rectangle in a column represents a topic. Links are drawn between topics to show how they vary by ratings. Sentiment is marked on each topic rectangle by a white vertical line: positive on the left, and negative on the right. All topics are interactive

7. **Dot Chart**
   Illustrates the growth of topics over time; topic labels are interactive

Additional chart (not represented by icons)

- **Sankey Chart**
  Shows the flow of data from a topic (left-hand side) to sentiment (middle) to sub-topics (right-hand side). This chart is best used to find out the “why” behind the “what”, as the sub-topics are the details behind the sentiment for each topic. Sentiment nodes are interactive

  • It seems like everything works very well.
  • Works really well also.

Performance ➤ Positive (1,043 statements)
  Good (2% or 21 statements)
  • Overall performance is good.
  • Performance in accord is still pretty good considering that it is using about 20 % less gas then a civic Si.
  • Styling, electronics, performance are all good and on par with other cars in this class.
  • The only good thing about this car is the performance and a good transmission.
  • The performance on the 4ci Sport is surprisingly good with 189 horses.

Performance ➤ Positive (1,043 statements)
  Firm ride (2% or 20 statements)
  • Ride is sporty firm, but still very comfortable.
  • Runs great, smooth firm ride, handles like a BMW.
  • The 190hp is adequate and the ride is firm enough yet not harsh.
  • The car rides firm but is very comfortable.
  • The ride is perfect - firm, but soaks up all bumps.

Performance ➤ Positive (1,043 statements)
  Handle curve (1% or 6 statements)
  • I love how it handles the curves, great stability.
  • It handles well around curves and it accelerates quickly.
  • The car, overall, drives quite well: it is zippier than my Camry was, gets better fuel economy (just over 30 MPG versus 26 for the Camry) and it seems smoother and handles curves better.
  • The ride is smooth over rough roads, it handles well around curves, has surprising pickup for a 4 cylinder, and runs quietly.
  • They cruise happily at 85 mph, handle great on curves, are quiet, and are just fun to drive.
Performance ➤ Negative (105 statements)

Work (62% or 65 statements)
- Does not work like it should and is actually a little confusing.
- I attempted to get into my car but the keys would not work.
- It is not working.
- This system does not work 50% of the time.
- Waisted money buying something that does not work.

Rough ride (31% or 33 statements)
- Car rides rough, any small bump in the road beats you to death.
- Ride on rough streets seems little choppy.
- Rough and hard ride.
- The downer is the terrible bumpy, rough ride.
- The interior cabin is noisy and with a somewhat rough ride.

Power (5% or 5 statements)
- About 6 months into ownership the car lost power.
- I really think the v6 feels slightly underpowered in this car.
- Interior quality sucks, No Power!
- No power, poor handling, and noisy!
- Power from the I4/5AT is mediocre.

Handling (2% or 2 statements)
- However, there was no significant improvement in the handling or ride of this car over my 2003 and it was very noisy on rough pavement and the suspension let me hear every imperfection in the road.
- No power, poor handling, and noisy!

Customer Experience ▶ Negative

129 or 2% statements (total 7,329 Stmts)
Customer Experience ➤ Negative (129 statements)

Uncomfortable (59% or 76 statements)
- "I have had this car for 3 years, and I found the ride very uncomfortable."
- Additionally, it is very noisy on the highway and has an uncomfortable ride.
- Extremely hard and uncomfortable.
- This is the most uncomfortable car I have ever owned in my life.
- Very uncomfortable car.

Customer Experience ➤ Negative (129 statements)

Customer service (22% or 29 statements)
- Honda has by far the absolutely WORST customer service I have ever experienced.
- It is frustrating the heck out of me and Honda Customer Service was of no help.
- Service dept can never replicate the noise so I am stuck.
- Service is also an issue.
- The only problem that I have is the consumer service is terrible.

Customer Experience ➤ Negative (129 statements)

Bad (12% or 16 statements)

Future Purchase ➤ Positive (401 statements)

Good buy (82% or 327 statements)

- Best buy by far.
- Glad we bought it.
- I am so happy I bought the 2013!
- It is a good buy.
- Look no further and buy one!

Future Purchase ➤ Positive (401 statements)

Recommend (18% or 74 statements)

- Highly recommend the new 2013 Accord
- I highly recommend this car.
- I would recommend this car.
- I would recommend this car to anyone!
- Would highly recommend it!
Future Purchase ➤ Negative (273 statements)

Never buy (95% or 258 statements)
- Basically it is a hunk of junk, and I should have never bought this car.
- Honda not a car you want to buy.
- They could not fix it for 7 times and I am going to sell this car and never buy a Honda again, because of no responsibility and no good service."
- This car is poor in every aspect and I will NEVER be buying a Honda Again!
- Will never buy a Honda again."

Recommend (5% or 15 statements)
- Leather is low quality, exterior appears cheap, "lighting section" left and right to licenseplate is fake, would not recommend this vehicle.
- Overall, I would not recommend this car, unless the CVT issue and the stiff ride do not bother you.
- Overall, I would not recommend this vehicle to anybody.
- So I do not recommend this car
- Would never recommend it to anyone.
Seat ▶ Negative (355 statements)

Uncomfortable (33% or 118 statements)
- The driver’s seat is horrible and not at all comfortable.
- Other major gripe - seat is uncomfortable.
- The seats are not comfortable.
- The seats are very uncomfortable.
- very uncomfortable front seats.

Leather (12% or 43 statements)
- Leather seats do not stand up to standard.
- Leather seats not quite as comfortable as my last accord.
- Next time, no leather seats.
- The Accord EX-L leather seats are a disaster.
- The Accord seats are not comfortable, they need vented seats, the leather is just too hot for hot climates.

Terrible (11% or 40 statements)
- Great cars except for one major issue THE SEATS SUCK.
- Love the styling, engine performance, handling but the seats are terrible!
- Seats are terrible, can not find a position that would feel comfortable.
- Seats are terrible.
- Terrible seats for almost a $27k vehicle.

Front (9% or 31 statements)
- First and foremost the front seats are unbearable.
- I like the car other then the uncomfortable front seats.
- The front seat was uncomfortable for my 5’3 frame.
- The front seats are to small for male drivers.
- very uncomfortable front seats.
Seat ► Negative (355 statements)

Passenger (7% or 25 statements)

- Another complaint is the passenger seat tilt.
- Disappointed in passenger power seat.
- I am short, so when I am seated in passenger side, I am at an uncomfortable level.
- My biggest complaint is the front passenger seat does not adjust up or down.
- Need manual vertical adjustment for passenger seat.

Seat ► Negative (355 statements)

Back (5% or 19 statements)

- Almost bought the Coupe but getting into the back seat was a pain.
- CTS Coupe seats are hard and not very comfortable (the kids echoed the same for the back seat).
- The back seat belts choke you—but that is the same as the old car.
- There is a creaking noise coming from the back seat.
- We can put the chest into the back seat, but I do not know what people with kids in the back seat will do.

Seat ► Negative (355 statements)

Hard (5% or 19 statements)

- Driver seat LX was very hard and uncomfortable.
- First, the seats are hard and have poor lumbar support (no matter what you do with the lumbar adjustment).
- Negatives: the seats are hard and flat, the driving position is not particularly comfortable and the electronics are wasted on me.
- Seat is hard and seat seam hits you wrong.
- Seats are a little hard, suspension is quite stiff.

Seat ► Negative (355 statements)

Adjustment (5% or 18 statements)

- 2 areas are less than ideal the passenger seat feels low with no adjustment to raise it and the removal of the garage door link except for the V6 leaves me scratching my head as to why?
- It seems that the adjustment range of the 10 way power seat in the Accord is too limited.
- Need manual vertical adjustment for passenger seat.
- No matter what adjustments you make to the seat, including the so-called lumbar support which honestly feels like someone is pushing you forward, roughly, and not supportive like, your back will be telling you it hurts eventually.
- the 2014 Honda Accord lacks the automatic seat adjustment, the interior seat covering is cheap, lack of colors.

Seat ► Negative (355 statements)

Cushion (3% or 9 statements)

- After making daily adjustments to the seat, and trying different seat cushions and lumbar supports, I came to the disappointing conclusion I will never be able to comfortably drive this car.
- My upper back has no support since the "bucket" style seats have side cushions that feel like they are pushing my arms and sides forward, not allowing me to actually relax my back whilst diving.
- The interior seats lack enough cushion and back support.
- The seat cushion tips backward so it is hard to reach forward.
- There is hardly any cushion on the seats and the seats are very hard.
Seat ► **Negative** (355 statements)

**Design** (2% or 7 statements)
- 1) Very poorly designed front seats, feels very uncomfortable.
- However, there is a poor design with the driver seat.
- Lack of split folding rear seat is an engineering / design oversight.
- Overall seat was not designed for a long distance ride.
- we are feeling helpless as their bad designing of the seats are ruining our health.

Seat ► **Negative** (355 statements)

**Cloth** (2% or 7 statements)
- Also, the fabric on the seats is horrible.
- Cloth on seats are not pulled tight.
- I test drove the cloth seats, found them uncomfortable but the salesperson convinced me that the leather was very comfortable as it had a lumbar adjustment etc.
- Seat cloth (fabric) so cheap!
- Seat cloth could have been better.

Seat ► **Negative** (355 statements)

**Lumbar** (1% or 5 statements)
- After making daily adjustments to the seat, and trying different seat cushions and lumbar supports, I came to the disappointing conclusion I will never be able to comfortably drive this car.
- Hydroplaning starts at 55 mph with normal rain, rear brake pads wear prematurely, driver seat lumbar defective causing discomfort and requiring to adjust seat constantly to remain in the car.
- The drivers seat is not comfortable in the lumbar area, but I am continuing to test lumbar settings for perfect fit.
- The seat bottom is not adjustable and if you are a big man like me, there is a small space between the seat bottom and the seat to which your back leans against that poses a huge backache to which the lumbar adjustment does not fix and will make it worse.
- The seats feel supportive in the EX but oddly enough there is no lumbar support for your lower back.

Seat ► **Negative** (355 statements)

**Belt** (1% or 5 statements)
- Here is also what I have also observed: \* Rattle noise from rear passenger seat belt trim piece (between rear window and air bag trim piece) Dealership padded and problem went away.
- I suffered a broken sternum and some other bruising due to the shoulder harness and seat belts, but the interior of the car, the driver and passenger compartment, was pretty much undamaged.
- The back seat belts choke you-but that is the same as the old car.
- The materials used for seat belts feels cheap.
- The other major gripe is the seat belt.

Seat ► **Negative** (355 statements)

**Position** (1% or 3 statements)
- I can feel the tension in my back and the seat does not accomodate a relaxed position.
- Our 6th Accord - we have been fans until now, but this car's head restraints, supposedly safer, project themselves so far forward, it is impossible to find a comfortable position for driving or riding in the passenger seat.
- The driver seat not very well designed so finding a comfortable driver position may be hard.
Seat ▶ Negative (355 statements)

**Folding** (1% or 3 statements)
- Finally, although I thought the NON-SPLIT folding rear seat would not be a concern, it has become a major inconvenience - hockey sticks needing to go through from the trunk while having a rear child car seat.
- Lack of split folding rear seat is an engineering/design oversight.
- No more sliding center armrest, no split folding rear seat (I prefer a split folding feature for my needs).

Seat ▶ Negative (355 statements)

**Cheap** (1% or 3 statements)
- I can not drive the car and can not believe Honda went cheap with the seats.
- It looks like Honda made a cheap bargain on seats.
- the 2014 Honda Accord lacks the automatic seat adjustment, the interior seat covering is cheap, lack of colors.

**Back** (11% or 32 statements)
- Even the back seat is comfy.
- Interior room is huge, especially the back seat area.
- The back seat is giant for its class.
- The back seat is large.
- The back seats are much flatter, and better.

**Seat ▶ Positive** (297 statements)

**Heated** (8% or 23 statements)
- Love the heated leather seats and the leg room (I am 6'1).
- The car sits comfortably and I love the heated seats.
- The interior is very nice heated leather seats, touch screen, side, and backup camera LDW etc.
- We also wanted a few creature comforts like heated seats and a sunroof.
- We love the heated seats and gas mileage.

**Seat ▶ Positive** (297 statements)

**Front** (7% or 20 statements)
- As far as the front seat I have plenty of leg room and I am 5'10.
- Even the interior is sport-oriented, with VERY well bolstered front seats and carbon fiber-like trim.
- Plenty of leg room in both the front and back seats.
- The seats are comfortable for both front and rear passengers.
- There is plenty of leg room in the back, even with the front seats all the way back.

**Seat ▶ Positive** (297 statements)

**Cloth** (4% or 13 statements)
- Bought a certified pre-owned EX model because I preferred the cloth seats but wanted a sunroof and I am still happy with my purchase.
- I would have preferred leather seats as an option, but the cloth seats are attractive."
- One of my favorite things is the seat fabric.
- The cloth bucket seats have a very smooth texture and are comfortable.
- The seat fabric is much better quality than my 2013 Toyota Tacoma had, so no need for seat covers.

**Seat ▶ Positive** (297 statements)

**Good** (4% or 12 statements)
- And the seats are good, you just have to get them set correctly, passengers is powered also, is a nice touch.
- But the seats in 2011 Accord were good.
- Good room even in the back seats for 6 footers.
- The seats are great, and all of the new technology adds to the pleasure of driving.
- Very comfortable inside with great seats.

**Seat ▶ Positive** (297 statements)

**Fit** (2% or 6 statements)
- I am 6'2 tall, there is still enough room behind me for my father who is 6'4 to fit without his knees touching the back of my seat.
- I am 6'5 tall and I fit quite easily in the drivers seat."
- I am over six foot tall and the seats fit like a glove.
- Interior is very roomy (I am 6'4") and can fit in the back seat as well with about an inch to spare.
- The back seat will fit two 6' adults comfortably for under-2-hour trips.
Seat ➤ Positive (297 statements)

Supportive (1% or 4 statements)
- Firm European ride, firm and supportive seats (we like both) and acceptable road noise (it is an Accord!).
- Seat are sporty and supportive.
- Supportive seats (love the power seat and lumbar) and a very spacious and comfortable cabin round out the package.
- The seats are really supportive and comfortable, so do not go by the few negative reviews, some people carry some extra weight, and no seat feels comfortable.

Seat ➤ Positive (297 statements)

Lumbar (1% or 3 statements)
- Comfortable seat with lumbar support.
- Love the lumbar support on the drivers seat, and pretty much love everything about the car.
- Supportive seats (love the power seat and lumbar) and a very spacious and comfortable cabin round out the package.

Seat ➤ Positive (297 statements)

Design (1% or 3 statements)
- I was told the seats were designed by several Chiropractors and that really was the first thing I noticed when I got in - how relaxing, supportive and comfortable the seats felt.
- Seat fabric and design is way better than Camry.
- The new macpherson struts, tuning, and new seat design offers up a smoother ride from previous generations.

Seat ➤ Positive (297 statements)

Love (1% or 2 statements)
- And I love the seats.
- My kids love the back seat room, and the interior is open and airy feeling.

Seat ➤ Positive (297 statements)

Adjustment (1% or 2 statements)
- Great MPG, seat with all adjustments works great (bought the car due to comfort 75 mi/day daily driving).
- 32 MPG for real.
- The driver seat adjusts up/down front/back.

Seat ➤ Positive (297 statements)

Passenger (1% or 2 statements)
- The seats are comfortable for both front and rear passengers.
- The seats are comfortable for me and the passengers.

Seat ➤ Positive (297 statements)

Cover (0% or 1 statements)
- The ride quality is excellent and the interior is nicely done with leatherette seat covers.
Look ▶ Positive

510 or 7% statements (total 7,329Stmts)

Interior ▶ Negative (34 statements)

Quality (35% or 12 statements)
- Interior : Cheap materials .
- Interior quality sucks , No Power !
- One thing we noticed from the 1998 Accord compared to the 2008 Accord , Honda kept the quality in the engine , but it the interior seemed cheap and littler noisier in the cabin when driving down the compared to the 1998 and the 2003 .
- Overall interior materials are pretty cheap for 25-30K car .
- the 2014 Honda Accord lacks the automatic seat adjustment , the interior seat covering is cheap , lack of colors .

Noise (29% or 10 statements)
- ( 3 ) Third problem is Interior Noise .
- Have taken the car in at least 9 times ( I stopped counting ) for interior noises .
- If I had to do it all again , I would not choose this car based on the interior noise and very uncomfortable seat .
- Interior road noise significant .
- Negative parts , the rear brakes started to squeal even before 1k and hearing interior rattle noises .

Lack (12% or 4 statements)
- 4 ) Small Interior - Feels my hands and elbows are touching the interior due to lack of space .
- Consumer Report is correct in pointing out the lack of fit and finish and cheap interior for Civic to which Honda responded by saying the car itself is realiable and popular .
- The interior lighting is lacking and looks kind of cheap when the dome light is lit .
- The interior seats lack enough cushion and back support .
Interior ★ Negative (34 statements)

- The variable speed transmission, you never feel it shift, great feeling.

Transmission ➤ Positive (171 statements)

Shift (6% or 11 statements)
- Drove the Mazda 3, Mazda 6 stick shifts and the transmission on this car is what helped me make the decision to go with the Accord.
- I actually think it adds a bit of premium quality to the drive as it does not shift gears like the standard transmission.
- The 6spd manual transmission is as smooth as silk shifting and the clutch won't wear you out in rush hour traffic on freeways.
- The CVT that mimics a regular shifting transmission is excellent and the 4cyl has plenty of performance.
- The ride is smooth and quiet, transmission shifts smoothly, and the brakes are very responsive.

Transmission ➤ Positive (171 statements)

Responsive (2% or 3 statements)
- the CVT / engine combination is responsive and smooth - my first tank of gas resulted in 27.7 MPG around town - not much in cabin storage space
- The CVT tranny is responsive and quiet.
- The CVT transmission is responsive and takes a little getting used to.

Transmission ➤ Positive (171 statements)

Good (1% or 2 statements)
- The excellent manual transmission really gives this car some character, and it succeeds in it is mission as a fun, affordable commuter car as well as a family hauler.
- The only good thing about this car is the performance and a good transmission.

Transmission ➤ Positive (171 statements)

Impress (1% or 2 statements)
- after trading my 2014 chrysler 300 for a 2015 Honda accord ex-l I have to say best deal ever I am impress with the CVT smooth ride a lot of interior room in rear seats bigger trunk better sound system and I love my interior color.
- For my new Accord, I was a little worried about the CVT, but became quickly impressed during highway driving with cruise control.

Engine ▶ Negative (68 statements)

4-cylinder (56% or 38 statements)
• My only gripe is the lack of horsepower from the basic 4 cylinder.
• Other than the sluggish performance of the base 4 cylinder engine, I have been generally pleased with the car until today.
• The 4 cylinder engine has adequate power, but will not win any races.
• The 4 cylinder engine will not win any races.
• There is too much road noise on the 4 cylinder version.

Engine ▶ Negative (68 statements)

Noise (16% or 11 statements)
• 2, engine has low hum noise when accelerate.
• Acceleration is really good but you can hear the engine noise.
• Mostly from the tires, but also noise from the CVT and engine.
• The engine is little noise than my old one.
• The engine makes a lot of noise without doing much, except waste gas.

Engine ▶ Negative (68 statements)

Check engine light (13% or 9 statements)
• Check engine light came on and the car began running rough on a long trip; stopped into a Honda dealership who told us that there was a class action lawsuit over this car, and Honda extended the warranty for this issue to 8 years/unlimited mileage.
• I had the oil changed 4 weeks prior and the car started running rough and check engine light came on.
• My car is 2 months old and twice the check engine light has come on.
• Now I had to change brakes, deal with AC not getting cool, flashing check engine lights, wheel alignment problems; all in 2.5 years.
• The very next day another check engine light.

Engine ▶ Negative (68 statements)

Issue (9% or 6 statements)
• Engine whine is annoying at best, maddening at worst.
• I know have unexplained engine issues that the codes will not translate.
• I now have 3, 500 miles on my coupe and experienced the oil burning issue that I have noted in the comments of others re the VCM engine.
• This car has major issues with oil consumption due to poor engine design.
• Was very reluctant to purchase another Honda Accord after having engine oil consumption issues with ‘09 EXL v6.

Engine ▶ Negative (68 statements)

Vibration (3% or 2 statements)
• The seats were very uncomfortable for my 5 foot 3 inch frame (despite attempts to use pillows and back supports). There was excessive vibration in the engine which resonated through the wheel when in idle or neutral.
• There was a lot of vibration in the engine which extended to the steering wheel.

Engine ▶ Negative (68 statements)

Restart (3% or 2 statements)
• For every remote start you have to restart the engine.
• When you remote start the vehicle and get in it, the engine automatically stalls and you have to restart the engine.
Drive ▶ Positive (160 statements)

Nice (49% or 79 statements)
- Drives nice, super quiet inside.
- I liked the looks of the car, it drove nice and I thought that with a 4 cylinder I would get pretty good gas mileage.
- I went out of state and drove it home and it was a very nice drive to say the least.
- The accord looks great, drives nice.
- This car drives nice, "a little stiff on the suspension," but makes up for the stiffness in handling.

Enjoy (26% or 41 statements)
- "I bought this car (Honda Accord EX-L V6) back in November of 2013, and I thoroughly enjoy driving this car.
- I have just under 6000 miles and enjoy driving this car.
- I just put 1000k on it and let me tell you I really enjoyed driving it.
- It is still new for me but each day I enjoy driving it more.
- With a 270 watt premium audio system it is great to travel with the windows down and the volume up enjoying the drive!

Easy (19% or 31 statements)
- Easy to drive both city and highway—but ride is much firmer than my previous Accord.
- Honda has made hands free driving easy, the USB and Bluetooth connections are convenient and make the driving experience pleasant.
- It is very comfortable to drive, the gas mileage is wonderful!
- The engine is very quiet and the interior features make driving easy.
- Very comfortable, easy to drive, plenty of power, quiet, and refined.
Drive ▶ Positive (160 statements)

Smooth (6% or 9 statements)
- I purchase a new 2015 Honda Accord EX-L it is drive smooth.
- Interior design was luxurious with safety feature like lane watch and front collision warning, smooth ride and noise canceling windows make it fun to drive, exterior is also sleek and sporty redesign LED daytime headlight makes it look more luxury like Lexus, BMW, Audi, Mbenz name it.
- Nice and smooth driving experience so far.
- The car drives so smooth and to me is very quiet.
- We drove a 390 mile trip this past week and is was ultra smooth, low road noise and it was extremely composed in the snow and ice we had to drive through, the traction contol really helped.

Drive ▶ Negative

3 or 0% statements (total 7,329 Stmts)

Drive ▶ Negative (3 statements)

Position (100% or 3 statements)
- Negatives: the seats are hard and flat, the driving position is not particularly comfortable and the electronics are wasted on me.
- Our 6th Accord - we have been fans until now, but this car’s head restraints, supposedly safer, project themselves so far forward, it is impossible to find a comfortable position for driving or riding in the passenger seat.
- very low and sporty driving position uncomfortable for tall people.

Quality ▶ Positive (102 statements)

Good (57% or 58 statements)
- Excellent quality paired with exterior styling (especially the Sport model).
- Honda does have good qualities.
- Quality is very good, beautiful interior.
- Quality of product very good.
- The value for the quality is excellent.

Build (28% or 29 statements)
- Amazing tech and build quality, too.
- Build quality excellent.
- Build quality is excellent, road noise is probably less than my BMW.
- Build quality is excellent.
- Great build quality as in my 02 and 07.

Reliable (13% or 13 statements)
- I buy Honda because in my experience, the quality and reliability are unmatched.
- Quality and reliability are the best words to describe Honda.
- The Accord won in affordability, reliability, quality, and styling (we got the Sport Edition, in blue).
- We bought the Honda accord knowing that it is reliability and quality build would not let us down.
- We just love the quality and reliability.

Solid (2% or 2 statements)
- Build quality seems solid.
- The build quality is rock solid, not even the slightest rattle from anywhere.
Quality ▶ Negative (60 statements)

Poor (82% or 49 statements)
- Cheap build quality - Honda am not what it used to be.
- Looks like cheap quality of insulation materials.
- Quality control poor.
- The paint is also of very poor quality.
- Very poor quality vehicle

Build (17% or 10 statements)
- Build quality is garbage!
- Cheap build quality - Honda am not what it used to be.
- Obviously, the Accord built quality had gone downhill over the years.
- The build quality is also lacking, both interior and exterior.
- The first thing I noticed is the build quality has gone down hill (cheap plastics, rattles in strange places etc).

Reliable (2% or 1 statements)
- This is not Honda quality or reliability.

Camera ★ Positive (134 statements)

Lane watch (60% or 81 statements)
- Drivetrain works well, and love the passenger side camera.
- I like the lane departure warning, forward collision warning and the blind spot camera on the right.
- Lane watch camera is nice, plus the lane departure warning and front collision warning.
- Lane Watch camera is pretty fun and everything else is smooth."
- The rear view camera is great and so is the right mirror lane-change camera.

Rear (37% or 50 statements)
- Awesome technology package with Lane Watch, Rear Camera etc.
- Like new interior and rear camera of the new car.
- The comfort of rear and side camera was excellent.
- Tough choice but I liked the rear camera better then the other cars.
- Vastly improved electronics and rear view camera.

Display (2% or 3 statements)
- I love the passenger side camera / display for right lane changes.
- I really love the backup camera and the large display.
- Right turns include a camera with a large screen viewer which also provides for backing up.
Camera ▶ Negative (7 statements)

Rear (57% or 4 statements)
- Oh and the backup camera is not clear!
- But I do not like are that the doors and sides are not all covered in leather, just parts and the backup camera does not beep when you are getting too close.
- For example, yesterday the top display froze when I shifted from reverse into drive, the backup camera guidance lines stuck on the display but with no camera image.
- Sometimes, the rear camera did not show the guide lines, the wallpaper on the main screen would not show up, the radio would produce an irritating high pitched sound out of the front speakers, the hard drive would get stuck playing one song and would not switch to another selection no matter what I did.

Side (29% or 2 statements)
- side camera viewing, and closure warning are distracting and not helpful.
- The vehicle has major flaws with the side camera, specially here in AZ it is HOT therefore the camera gets hot which renders the dash inoperable and Honda says it is to protect the components.

Resolution (14% or 1 statement)
- Camera has very poor resolution at night and in rain.

Topics  Sentiments  Sub-topics
Tire ▶ Negative (121 statements)

Noise (79% or 96 statements)
- Above all, the car is NOISY, a lot of wind and tire noise in the cabin.
- I do not like the excessive tire noise, CVT transmission, entry difficulty (6’2”) and terrible stereo.
- The road noise from the tires is a little loud at highway speeds.
- Tire noise is a little loud, but once I wear out the Dunlops I will put on something quieter.
- You will have to deal with all kind of creaking and rattling noises, in addition to ear-deafening noises from road, tire, wind and so on.

Pressure monitoring system (20% or 24 statements)
- Deducted one point only because tire pressure monitoring systems (tire pressure) is not accurate.
- Low tire pressure warning comes on will not go off, blocking the speedometer gauges, even after checking the tires which were ok.
- Occasionally car stalls and all indicator lights come on; low tire pressure light is almost always on even when tires are properly inflated.
- The check engine, tire pressure, vehicle assist, and power steering all illuminated unexpectedly and the vehicle immediately lost power and would not accelerate past 40 mph.
- Tire pressure light comes on nearly all the time even when tires are properly inflated.

Uneven (1% or 1 statements)
- Uneven tire wear despite alignments and rotation.

  - The inside is roomy and comfortable.

- Good (21% or 18 statements)
  - "This vehicle was designed the best on giving quite few luxury in class.
  - I have owned the previous 3 generations of the Accord and I must say that the newly designed Accord looks the best.
  - The best design with classic look.
  - The design of the new Accord is the best design Honda has come up with.
  - Very well designed and a great stereo system.

- Beautiful (2% or 2 statements)
  - The beautiful design of the exterior and the good quality found in past Hondas is why I bought it.
  - The car is absolutely stunning to behold, with it is beautiful design, and I get compliments all the time.

- Front (1% or 1 statement)
  - Love the handling, gas mileage, and the front design.
Design ➤ Negative (29 statements)

Poor (76% or 22 statements)

- Apparently a design flaw from what I have been reading.
- However, there is a poor design with the driver seat.
- Real poor design.
- The information display and console has a very poor design.
- This car has major issues with oil consumption due to poor engine design.

Oversight (10% or 3 statements)

- I think it is a fine car but a few design oversights, clustered around the driver, are really frustrating especially when past Honda efforts lead you to expect the details to be well thought out. count: 2
- Lack of split folding rear seat is an engineering/design oversight.

Front (10% or 3 statements)

- 1) Very poorly designed front seats, feels very uncomfortable.
- Front storage could be better designed.
- To me it seemed there is a flaw design between the gear shift and the front console, there is a compartment in front of the gear shift that is not easily accessible.

Cargo net (3% or 1 statement)

- The cargo net is not as good as the Camry's, as it is not very deep, can not hold heavy loads, and fits fewer grocery bags.
